2. **Reimbursement of Advisory Committees.** None of the funds appropriated in this Act to the State Board for Educator Certification may be used for the reimbursement of advisory committee members unless the Chairman of the Board provides written notification, including a justification of the purpose of the committee, to the Legislative Budget Board and the Governor.
3. **Appropriations Limited to Revenue Collections.** It is the intent of the Legislature that fees, fines, and other miscellaneous revenues as authorized and generated by this agency cover, at a minimum, the cost of the appropriations made above for Strategies A.1.1. and A.1.3, as well as the "other direct and indirect costs" associated with these functions, appropriated elsewhere in this Act. "Other direct and indirect costs" for these functions are estimated to be \$576,131 in 2002 and \$678,328 in 2003. In the event that actual and/or projected revenue collections are insufficient to offset the cost identified by this provision, the Legislative Budget Board may direct that the Comptroller of Public Accounts reduce the appropriation authority above to be within the amount of revenue expected to be available. This provision does not apply to \$16,000 for each year in General Revenue for Strategy A.1.3 and \$643,100 in fiscal year 2002 in Telecommunications Infrastructure Fund No. 345 for Strategy A.1.1.
4. **Assessment Fees.** In order to ensure that all examinations required for certification reflect the Texas Essential Knowledge and Skills developed under § 28.002 of the Texas Education Code as well as the competencies required of professional educators, all unexpended balances of appropriated certification and assessment fees remaining as of August 31, 2001, are hereby appropriated for the biennium beginning September 1, 2001, in an amount not to exceed \$1,650,000. Unexpended appropriated balances on hand at the end of fiscal year 2002 may be carried over to fiscal year 2003 in an amount not to exceed \$310,000. Such appropriation and carry-forward may only be used for the purpose of test administration and development.
5. **Exam Locations.** The State Board for Educator Certification shall continue to ensure that sites in the state of Texas that provide the main certification examination for educators (a.k.a. ExCET) are located such that there is a site within 50 miles of every Board-approved educator preparation program. In addition, the Board shall conduct a study to determine the potential savings of offering the ExCET exam in all approved educator preparation program facilities.
6. **Integrated Reporting System.** The State Board for Educator Certification shall coordinate with the Texas Education Agency and the Higher Education Coordinating Board regarding sharing, integrating, and housing pre-kindergarten through grade 16 (P-16) public education data. The three agencies shall work together to ensure that common and related data held by each agency is maintained in standardized, compatible formats to enable the efficient exchange of information between agencies and for matching of individual student records for longitudinally based studies and analysis. It is the intent of the legislature that individual initiatives interact seamlessly across agency systems to facilitate efforts to integrate the relevant data from each agency into a longitudinal public education data resource to provide a widely accessible P-16 public education data warehouse.
7. **Texas Beginning Educator Support System.** The State Board for Educator Certification shall seek federal funds to continue the Texas Beginning Educator Support System (TxBESS) or any other beginning teacher induction/mentor program. Any federal funds received by the State Board for Educator Certification for this purpose are hereby appropriated to the agency. Article IX provisions regarding transferability notwithstanding, the agency may transfer General Revenue from one strategy to another, or carry forward unexpended balances from fiscal year 2002 in fiscal year 2003, to reach an annual funding level of \$3 million for the Texas Beginning Educator Support System for each year of the 2002-2003 biennium. Any federal funds received by the agency for a beginning educator induction program shall reduce the use of carried-forward unexpended appropriated General Revenue funding, or inter-strategy transfer of General Revenue, so as to maintain a \$3 million annual funding level for the induction program.

STATE BOARD FOR EDUCATOR CERTIFICATION

(Continued)

If the agency receives a state fiscal year grant of more than \$3 million for either year of the biennium, it may not expend any carried-forward unexpended appropriated or inter-strategy transfer of General Revenue funds for the induction program.

As part of the beginning educator induction program, the agency shall train districts to develop and operate their own local induction programs, based on the statewide TxBESS model.

The agency shall report on its efforts to obtain federal funds for beginning educator induction/mentoring to the Seventy-eighth Legislature.

8. **Test Development.** The State Board for Educator Certification shall consider the use of standard exams that are not specific to Texas curricula to complement a core of Texas-specific exams and/or replace certain Texas-specific exams planned or under development. The board shall consider the following factors when determining whether a Texas-specific exam is necessary - the number of Texas educators likely to take the exam; the extent to which educators from states that use a standard exam pass similar Texas-specific exams; the similarity of content covered in a standard exam versus the planned Texas-specific exam, understanding that 100 percent of alignment is not necessary; and the relative cost to the state and to examinees of a standard exam versus a Texas-specific exam.

The State Board for Educator Certification is hereby authorized to expend funds appropriated in Strategy A.1.1, Educator Quality/Accountability, for test development for the evaluation and purchase of standard exams, if the Board finds that a standard exam is appropriate.

9. **Federal Funds for Test Development.** The State Board for Educator Certification shall seek federal funds to provide for the development of new certification examinations. Any federal funds received by the State Board for Educator Certification for this purpose are hereby appropriated to the agency. The agency may not expend more than \$2.8 million for test development in the 2002–2003 biennium in all funds.

The agency shall transfer an amount of General Revenue equal to any federal funds received for test development from Strategy A.1.1, Educator Quality/Accountability, to Strategy A.1.2, Retention, Recruitment, for the Texas Beginning Educator Support System mentoring program.

10. **Communication of New Rules.** It is the intent of the Legislature that the State Board of Educator Certification communicate the adoption of new rules directly to school districts and institutions of higher education by electronic mail or regular mail in a timely manner. The board will also post newly adopted rules on the Internet for review.
11. **Reporting of Teacher Misconduct.** From funds appropriated, the State Board of Educator Certification, the Texas Education Agency, and the University of Texas System shall coordinate to work with school districts to ensure timely and accurate reporting of teacher misconduct as required under Texas Administrative Code 249.14.

HIGHER EDUCATION EMPLOYEES GROUP INSURANCE CONTRIBUTIONS (Continued)

In no event shall the total amount of state contributions allocated to fund coverage in an optional health plan exceed the actuarially determined total amount of state contributions that would be required to fund basic health coverage for those active employees and retirees who have elected to participate in that optional health plan.

General Revenue funds appropriated herein shall be supplemented by funds appropriated elsewhere in this Act for employees enrolled in the State Kids Insurance Program (SKIP) to provide for a premium-sharing structure comparable to the Children's Health Insurance Program (CHIP). Institutions of higher education paying for health insurance costs from non-General Revenue funds shall provide the same levels of premium-sharing for SKIP enrollees as provided for those higher education employees with health insurance paid from General Revenue funds.

Funds appropriated for higher education employees' group insurance contributions may not be used for any other purpose.

It is further provided that institutions shall cooperate so that employees employed by more than one institution may be covered under one group policy and that said policy may be held jointly by two or more institutions and paid from funds appropriated to the institutions for payment of employee insurance premiums as set out above.

- 2. The University of Texas System Group Health Insurance Contributions.** Funds identified above for group insurance are intended to fund the same portion of the costs of basic health coverage for all active and retired employees and their dependents as is provided above for higher education active and retired employees and dependents participating in the Employees Retirement System's Uniform Group Insurance Program.

Active and retired employees of The University of Texas System are authorized to use one-half of the "employee-only" state contribution amount, for optional insurance. Optional insurance for the employees participating in the group insurance program shall be defined by The University of Texas System. Active and retired employees that participate in these plans may only use one-half of the employee-only state contribution if they sign and submit a document to their employing institution indicating that they have health insurance coverage from another source.

- 3. Texas A&M System Group Health Insurance Contributions.** Funds identified above for group insurance are intended to fund the same portion of the costs of basic health coverage for all active and retired employees and their dependents as is provided above for higher education active and retired employees and dependents participating in the Employees Retirement System's Uniform Group Insurance Program.

fiscal year 2002; the allocation for fiscal year 2003 for each participating institution will be equal to 15 percent of the developmental education formula funding generated by that institution in the semester credit hour appropriation for fiscal year 2003. A student who successfully completes developmental education is defined as a student who does not meet basic state education standards for college-level work, as defined by the Coordinating Board, who undertakes a developmental education program, and who subsequently demonstrates college readiness, as defined by the Coordinating Board, within two years. In allocating these funds, it is the intent of the Legislature that (a) performance funding should be allocated to individual institutions in such a way that remedying large deficiencies in college readiness will result in proportionately more funding than remedying minor deficiencies in college readiness; and (b) institutions that demonstrate an increase in performance do not experience a reduction in developmental education funding received through the pilot program.
- d. Not later than November 1, 2002, the Coordinating Board, in conjunction with the institutions participating in the pilot program, shall produce a report evaluating the effectiveness of the pilot program and making recommendations regarding its continuation. It is the intent of the Legislature that continuation of the program beyond August 31, 2003, be conditioned on demonstrated effectiveness in remedying deficiencies in college readiness.

26. **Community and Technical College Developmental Education Accountability Pilot Program.** The Higher Education Coordinating Board shall administer and coordinate the Community and Technical College Developmental Education Accountability Pilot Program under the following guidelines:

- a. The Coordinating Board shall select participating community and technical colleges from among institutions that volunteer.

These funds shall be transferred from the formula funded strategies of the participating community/technical colleges to the Coordinating Board and are hereby appropriated to Strategy C.4.7, Community and Technical College Developmental Education Performance Fund.
- c. Funds appropriated above in Strategy C.4.7, Community and Technical College Developmental Education Accountability Pilot Program are to be allocated by the Coordinating Board to the community and technical colleges participating in the pilot program. The allocation to each institution for each fiscal year shall be based on the improvements made in academic preparation of students who have previously been

evaluated as not meeting basic college readiness standards as defined by the Coordinating Board, and who have completed a developmental education program in the previous year. In allocating these funds, it is the intent of the Legislature that (a) performance funding should be allocated to individual institutions in such a way that the funding provided for individual students shall be proportional to the progress that has been made in remedying deficiencies in college readiness, as defined by the Coordinating Board; and (b) institutions that demonstrate increased performance do not experience a reduction in the developmental education funding received through the pilot program.

- d. Not later than November 1, 2002, the Coordinating Board, in conjunction with the institutions participating in the pilot program, shall produce a report evaluating the effectiveness of the pilot program and making recommendations regarding its continuation. It is the intent of the Legislature that continuation of the program beyond August 31, 2003, be conditioned on demonstrated effectiveness in remedying deficiencies in college readiness.

 - b. Of the funds appropriated above in Strategy C.1.17, Toward EXcellence, Access, and Success (TEXAS) Grant Program, and funds transferred into the TEXAS Grant Program as specified in subsection (a), any unexpended balances on hand at the end of fiscal year 2002 are hereby appropriated for the same purposes in fiscal year 2003.
 - c. It is the intent of the Legislature that the board plan the expenditure of new funding appropriated to the TEXAS Grant Program so that the program will not require an appropriation of greater than \$381 million, plus any unexpended balances carried forward, in the 2004–2005 biennium. Such implementation levels are projected to be \$120 million in fiscal year 2002 and \$162 million in fiscal year 2003.
 30. **Economically Disadvantaged Student Retention Performance Fund.** The Texas Higher Education Coordinating Board shall distribute funding appropriated above in Strategy C.4.8, Economically Disadvantaged Student Retention Performance Fund, to general academic institutions based on increases in the retention of first-time, full-time economically disadvantaged undergraduates who make satisfactory academic progress. Only those institutions showing increases of at least 5 percent in both the number of economically disadvantaged students

retained and the retention rate of those students shall be eligible for the fund. Allocations to eligible institutions shall be proportional to the number of first-time, full-time economically disadvantaged undergraduates retained for one academic year.

Not later than November 1, 2002, the Coordinating Board shall produce a report evaluating the effectiveness of the pilot program and making a recommendations regarding its continuation. It is the intent of the Legislature that continuation of the program beyond August 31, 2003, be conditioned on demonstrated effectiveness in increasing the retention of economically disadvantaged students.

The Coordinating Board may maintain and update as necessary the database developed for the disparity study. The Texas Education Agency and each institution of higher education receiving appropriations may cooperate with the Coordinating Board to continue the disparity study and to provide data to maintain and update the database. The three agencies shall work together to ensure that common and related data held by each agency is maintained in standardized, compatible formats to enable the efficient exchange of information between agencies and for matching of individual student records for longitudinally based studies and analysis. It is the intent of the Legislature that individual initiatives interact seamlessly across agency systems to facilitate efforts to integrate the relevant data from each agency into a longitudinal public education data resource to provide a widely accessible P-16 public education data warehouse.
37. **Enrollment Growth Funding for General Academic Institutions.** Funds appropriated above in Strategy C.4.9, General Academic Institution Enrollment Growth, are to be used only to assist public general academic institutions which experience dramatic rates of growth in weighted semester credit hours during the 2002–03 biennium. The pilot system should be designed to refer and facilitate the admission of students who have been denied admission to the institution of their first choice to other Texas public higher education institutions. In no way should the pilot program interfere with existing provisional admission programs already in place at higher education institutions. Participation by institutions in the pilot program shall be on a voluntary basis. The pilot program shall begin operation with the Fall 2002 semester.

The Coordinating Board, in conjunction with the institutions participating in the pilot program, shall produce a report evaluating the pilot program no later than December 31, 2002.

Sharing of such data among agencies should facilitate the financial aid application process, reduce paperwork for applicants, and improve processing for financial aid offices while protecting the privacy rights of individuals.

The Coordinating Board shall report its findings to the Legislature no later than September 1, 2002, including any statutory changes necessary to allow and facilitate such data exchanges among agencies. If in the course of its study, the Coordinating Board finds that assistance or flexibility from the federal government would facilitate the sharing of information used to establish eligibility for student financial aid, it shall report such a finding to the Governor and Legislative Budget Board at the time of discovery.

43. **Graduate and Post Graduate Medical Education Task Force.** The Coordinating Board shall convene a task force consisting of representatives from each state-appropriated health science center and hospital, as well as selected representatives of hospitals and health care facilities that serve as teaching facilities with residency programs. The Coordinating Board may hire an independent consultant to assist in the gathering and interpretation of data and the construction of recommendations. The Coordinating Board may pay for that consultant out of funds which may be available from gifts, grants or donations, or from transfers which may be made from funds available to the entities represented on the task force. Such transfer amounts shall be proportional to the numbers of graduate and post-graduate medical students in each entity's respective programs.

The task force shall recommend, to the Seventy-eighth Legislature by September 1, 2002, funding priorities that preserve the long-term viability of graduate and post-graduate medical education in Texas by improving graduate and post-graduate medical education's service to Texas residents.

within six years of becoming a full-time student at another public higher education institution.

In order to facilitate implementation of the strategic plan for teacher certification, the Coordinating Board shall work with the Texas Education Agency, the State Board for Educator Certification, school districts, professional educator associations, and any other entity it believes could aid in development of a teacher certification web page. The web page shall convey information on traditional and alternative certification programs and related employment opportunities in such a format that resources are linked and data is easily accessible and navigable to those interested in pursuing a career in teaching.

47. **Financial Aid Maximum for Students Attending Independent Colleges and Universities.** The total amount of financial aid a student is eligible to receive from a TEXAS Grant and the Tuition Equalization Grant is limited to the maximum amount of the Tuition Equalization Grant as determined by law. In no case shall higher tuition at a private institution make it possible for a student to receive more state grant aid than 50 percent of the average state appropriation for an FTE student at a state public institution in the previous biennium. Furthermore, in no case shall the total amount of financial aid from the TEXAS Grant and Tuition Equalization Grant a student is eligible to receive be interpreted as the total amount of tuition and required fees charged to a student for the semester of award at a private institution.

It is the intent of the Legislature that the state shall give priority in TEXAS Grant funding to students with the greatest financial need who attend public colleges and universities.

48. **Diversity at Independent Colleges and Universities Which Receive TEG.** Independent colleges and universities which enroll students receiving Tuition Equalization Grant funds appropriated by this Act shall provide annual reports to the Higher Education Coordinating Board regarding the diversity of their student body, faculty, executive committee, and board of regents. 51. **New Campus Funding at Wharton Junior College.** Funds appropriated above in Strategy C.4.11, New Campus Funding at Wharton Junior College, are to provide for the new campus at Wharton Junior College. Wharton Junior College shall apply to the Higher Education Coordinating Board for funding based on actual new contact hours generated during the 2002–03 biennium. To be eligible for this funding, enrollment at the new campus must result in a districtwide increase in contact hours. Wharton Junior College cannot be eligible for dramatic enrollment growth funds based on growth at the new campus.
52. **Distance Learning Consortium.** It is the intent of the Legislature that from the funds appropriated above in Strategy C.4.4, Centers for Teacher Education, the Higher Education Coordinating Board provide \$200,000 in fiscal year 2002 and \$200,000 in fiscal year 2003 to upgrade distance learning through Huston-Tillotson College.

2. **Appropriation Eligibility.** To be eligible for and to receive an appropriation a public community/junior college must be certified as required by VTCA, Education Code, Chapter 61, § 61.001, and comply with the following provisions:
 - a. The Texas Higher Education Coordinating Board shall 1) determine whether each eligible public community/junior college has complied with all the provisions of this section; 2) determine each college's list of approved courses; and 3) certify its findings and such lists to the State Auditor not later than October 1 of each fiscal year. Each public community/junior college shall make such reports to the Texas Higher Education

Coordinating Board as may be required, classified in accordance with the rules and regulations issued by the Board.

- b. On or before the dates for reporting official enrollments each semester to the Texas Higher Education Coordinating Board, each college will collect in full from each student that is to be counted for state aid purposes the amounts set as tuition by the respective governing boards. Valid contracts with the United States government for instruction of eligible military personnel, and valid contracts with private business and public service-type organizations or institutions such as hospitals, may be considered as collections thereunder, but subject to adjustments after final payment thereof.
 - c. Each community/junior college must use a registration and financial reporting system which is sufficient to satisfy the audit requirements of the State Auditor and furnish any reports and information as the auditor may require.
 - d. Each community/junior college must file by November 1 of each fiscal year directly with the Governor's Office of Budget and Planning, Legislative Budget Board, the Legislative Reference Library, and the Texas Higher Education Coordinating Board, a copy of an annual operating budget, and subsequent amendments thereto, approved by the community/junior college governing board. The operating budget shall be in such form and manner as may be prescribed by the board and/or agency with the advice of the State Auditor providing, however, that each report include departmental operating budgets by function and salaries and emoluments for faculty and staff listed by position.
3. **Approved Elements of Expenditure.** The expenditures by a public community/junior college of any funds received by it under these provisions headed "Public Community/Junior Colleges" shall be limited to the payment of the following elements of cost: instruction, academic support, student services, institutional support, organized activities, and staff benefits. It is specifically provided, however, that in addition to the purposes enumerated herein, the funds appropriated above for special items may be expended for salaries, wages, travel, capital outlay and other necessary operating expenses. It is specifically provided that funds appropriated above may not be used for the operation of intercollegiate athletics.
4. **Audit of Compliance.** The compliance of each public community/junior college with the requirements set forth in the paragraphs above shall be ascertained by the State Auditor who shall also audit the pertinent books and records of each college as necessary.
5. **Vouchers for Disbursement of Appropriated Funds.** Vouchers for disbursement of the sums appropriated hereinabove shall be prepared by the Texas Higher Education Coordinating Board on the basis of the provisions in the paragraphs above and the warrants issued in payment thereof shall be issued in compliance with VTCA, Education Code, § 130.0031.

Funds appropriated above to Howard County College for the operation of the Southwest Collegiate Institute for the Deaf shall be distributed in accordance with the installment schedule for Category 1 junior colleges.

The total amount of funds appropriated above in each year of the biennium to Midland College in Strategy AA.1.1, American Airpower Heritage Museum, should be distributed on September 1 of the year funds are appropriated.

In submitting vouchers for disbursement of the funds herein appropriated, the Texas Higher Education Coordinating Board, shall certify to the State Comptroller of Public Accounts that each school listed has qualified and is entitled to receive such funds under the provisions set forth in this Act under the heading "Public Community/Junior Colleges."

6. **Unobligated Balances.** At the close of each fiscal year each community/junior college shall report to the Coordinating Board the amount of state allocations which have not been obligated within each line item and shall return that amount to the State Treasury for deposit in the General Revenue Fund.
7. **Adjustment of Contact Hours.** The hours used in the contact hour base period are subject to audit for accuracy by the State Auditor according to an audit plan developed in consultation with the Texas Higher Education Coordinating Board, the Legislative Budget Board and the public community and junior colleges, and the dollar amounts adjusted accordingly by the Texas Higher Education Coordinating Board. The total amount that is reduced from colleges which have overstated base period contact hours shall be redistributed to those colleges which have understated base period contact hours to the extent of such understatement. Redistributions shall include all institutions funded by the two-year contact hour funding formula. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the total contact hour formula appropriations to that institution for the biennium. Adjustments shall be made to appropriated amounts in accordance with adjustments of estimated contact hours to actual certified contact hours, even if the total error rate is less than 2 percent of the total contact hour formula amount appropriated to that institution for the biennium. No college shall have dollar amounts adjusted below \$2,318,375. Institutions where sampling errors are identified may request a comprehensive institutional audit at institutional expense.
8. **Separation of Funds.** The funds appropriated by the State shall be maintained separately by community/junior colleges from other sources of income.
9. **Supplanting of Federal Funds Prohibited.** It is legislative intent that state funds not be used to supplant federal funds for the Job Training Partnership Act programs conducted by community/junior colleges.
10. **Residency of Texas Department of Criminal Justice Inmates.** All inmates of the Texas Department of Criminal Justice are, for educational purposes only, residents of the State of Texas.
11. **Small Business Development Center.** The Small Business Development Center at Dallas County Community College shall receive \$746,042 in each year of the biennium, as appropriated above, contingent upon certification by the Comptroller of Public Accounts that increased activity by the Small Business Development Center will generate at least \$1,492,084 for the biennium in additional revenue to the General Revenue Fund. It is the intent of the Legislature that state funds provided to the Small Business Development Center be used by the center to attract federal funds on a dollar-for-dollar basis.
12. **Regional Import/Export Training Center.** Appropriations of \$50,000 each year made above are contingent upon certification by the Comptroller of Public Accounts that increased economic activity associated with the Regional Import/Export Training Center and the Laredo Junior College will generate at least \$100,000 for the biennium in additional revenue to the General Revenue Fund. It is the intent of the Legislature that state funds provided to the Regional Import/Export Training Center be used by the center to attract federal funds on a dollar-for-dollar basis.

Utility Revolving Funds.** The governing boards of Texas Woman's University, West Texas A&M University, all components of the University of Houston System, Texas State University System, Texas Tech University System, University of North Texas System, and The University of Texas System are authorized to use appropriated funds, except funds expressly identified for

salaries, to make payments of debt service and other payments in connection with utility plant revenue bonds and utility plant operation and maintenance expenses, and/or to reimburse any revolving fund now or hereafter established in connection with providing utility services to any building or facility of the college or university, in accordance with the general principles established in VTCA, Education Code § 55.11, and the creation and maintenance of any such revolving fund is hereby authorized.

8. Appropriation Expenditure Authorization.

- a. The educational and general appropriations made in this Act to the general academic teaching institutions, health related institutions and Texas State Technical College may be expended for the following purposes, including, but not limited to: Instruction; Research; Public Service; Academic Support; Student Services; Institutional Support; Operation and Maintenance of Plant; Scholarships; Staff Benefits; Organized Activities; and Patient Care. Major repairs and rehabilitation of buildings and facilities may be purchased from appropriated funds, but may not be purchased from general revenue funds that are not expressly identified or allocated for such purposes.
- b. No educational and general funds appropriated to any institution or agency named in this article may be expended on auxiliary enterprises, unless specifically authorized in this Act.

9. Tuition Revenue Bonds and Revenue Bonds. Funds clearly identified in separate informational strategies to the general academic teaching institutions and health sciences centers for revenue or tuition revenue bond retirement may be expended only to reimburse institutions or centers for debt retirement authorized by VTCA, Education Code § 55.17 through § 55.174 and § 55.19, and any additional authorization enacted by the Seventy-seventh Legislature. Any funds in excess of the amount expended for debt retirement shall be reverted to the General Revenue Fund at the end of each fiscal year.

Sec. 7. Recruitment of Students. No funds appropriated by this Act may be expended for travel expenses incurred outside the boundaries of the State of Texas for the purpose of direct recruitment of students.

Sec. 8. Television Stations Prohibited. None of the educational and general funds appropriated in this Article may be expended for the acquisition, construction or operation of television transmitter stations; provided, however, this prohibition shall not be construed so as to prevent the institutions of higher education named in this Article from using closed-circuit television for purely instructional purposes, or to prevent institutions with existing public broadcasting or transmitter stations to use them for educational purposes, or to prevent the continuance of operating arrangements with existing transmitter stations for purely educational purposes; or to prevent cooperative arrangements with public broadcast stations.

Sec. 9. Intercollegiate Athletics. The special and general provisions of Articles III and IX of this Act shall not apply to intercollegiate athletics. The governing boards of the respective institutions of higher education shall make such necessary rules and adjustments as may be deemed advisable for the management and operation of such activities; however, no funds under control of intercollegiate athletics may be used to purchase alcoholic beverages; no educational and general funds appropriated may be used for the operation of intercollegiate athletics; such rules and adjustments shall be designed to complement the rules applicable to other departments of the respective institution and finally, such rules and adjustments shall specifically prohibit violation of National Collegiate Athletic Association (NCAA) or other governing body rules with respect to recruitment of athletes.

Sec. 10. Prohibition Against Additional Museums. None of the educational and general funds appropriated in this Article shall be used for establishing additional museums or for the maintenance and operation of museums unless the language of this Act or of other acts and resolutions of the

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION

Legislature specifically authorizes such use of educational and general funds. As an exception to this provision, in order to encourage and promote gifts, grants, or donations to institutions of higher education, it is specifically provided that an institution which receives such gifts, grants or donations for the construction or establishment of a museum, which is added to an institution's building inventory after September 1, 1997, may use education and general funds appropriated by this Article for the maintenance and operation of such a museum. This exception applies only to the authority to spend appropriated funds for these purposes; such museum space shall not be included in formula calculations for purposes of determining the amounts of appropriations due for maintenance or operations of institutional facilities.

Sec. 11. Method of Financing Scholarships.

1. Out of the funds identified by this Article in the informational items described as "Other Educational and General Income," the respective governing boards of the general academic teaching institutions and of the health centers, health science centers, or technical colleges may allocate and expend the actual receipts in such informational item for student scholarships pursuant to the provisions of VTCA, Education Code § 56.031 to § 56.039, cited as the Texas Public Educational Grants Program.
2. Out of the funds identified by this Article in the informational strategies described as "Scholarships," the respective governing boards may allocate and expend for student scholarships and the institutional share required to match Federal Work Study Funds such amounts as the boards may determine; provided, however, that each student receiving such scholarship first shall have utilized any federal grant funds for which the student may reasonably be eligible; and, that such scholarship, when combined with all other grant or gift funds awarded to the student, shall not exceed 70 percent of the reasonable expenses to be incurred by the student in the semester or term for which the scholarship is awarded; and provided, however, that no student shall receive an amount in excess of demonstrated need. The respective governing boards may transfer up to one-half of the amount to be awarded as scholarship to each otherwise eligible student to the Texas Higher Education Coordinating Board for use as matching funds to be awarded to that student through the Texas Public Educational Grants Program.
3. Copies of such approved allocations together with copies of rules and regulations adopted by the respective governing boards concerning the award of such scholarships, shall be filed with the Coordinating Board and with the Comptroller prior to the disbursement of any moneys for scholarships. Copies of any subsequent changes in such allocations or rules shall be similarly filed with the Coordinating Board and with the Comptroller.
4. No educational and general funds appropriated in this Act for scholarships to institutions of higher education may be used to provide athletic scholarships.
5. Out of the additional funds appropriated for the 2002–03 biennium for the informational strategy described as "Scholarships," it is the intent of the Legislature that the respective governing boards shall allocate and expend such funds for need-based student scholarships regardless of the race, sex, color or ethnicity of the student recipient.

Sec. 12. Use of Educational and General Funds for Alumni Activities Prohibited. None of the educational and general funds appropriated by this Article may be expended by institutions of higher education for the support or maintenance of alumni organizations or activities.

Sec. 13. Limitation of Nonresident Enrollment in Certain State-supported Professional Schools.

1. None of the funds appropriated by this Act may be expended for the establishment, operation, or maintenance, or for the payment of any salaries to the employees in, any wholly or partially

state-supported medical, dental, or law school which: (a) imposes a limitation on the number of students that it admits, (b) in an academic semester denies admission to one or more Texas residents who apply for admission and who reasonably demonstrate that they are probably capable of doing the quality of work that is necessary to obtain the usual degree awarded by such school, and (c) in the same academic semester admits, as either class, nonresidents of the State of Texas in a number greater than 10 percent of the class of which such nonresidents are a part. Limitation of nonresident enrollment at The University of Texas Law School, Texas Tech University School of Law, and the University of Houston Law Center may be increased to 20 percent of the class of which nonresidents are a part provided that the admission of such nonresident students is on the basis of academic merit alone. By the provisions of this paragraph it is intended to withhold funds appropriated by this Act from state-supported medical, dental, and law schools which limit their enrollments and which fill more than 10 percent of their classes with non-resident students in the case of medical and dental schools, and 20 percent in the case of The University of Texas Law School, Texas Tech University Law School and the University of Houston Law Center, when the result of admitting a nonresident denies admission to a qualified Texas applicant. This provision shall not apply to the funds appropriated to the Coordinating Board for the funding of Baylor College of Medicine or to funds appropriated for tuition equalization grants for students attending private colleges.

2. In addition, The University of Texas Southwestern Medical Center at Dallas may admit up to 25 competitively recruited medical students in each entering class for a specialized six-year program of clinical and research training designed to lead to the MD and PhD degrees irrespective of whether those students are Texas residents.
3. Texas medical schools may enroll up to 6 competitively recruited medical students, who already possess the DDS degree, in each second year medical school class for a specialized six year program in oral and maxillofacial surgery comprised of the last three years of medical school and a three year residency program irrespective of whether those students are Texas residents.

Sec. 14. **Off-campus Instruction.** General academic institutions may teach courses off campus with the following restrictions:

1. At the conclusion of each fiscal year, the Coordinating Board shall file a report with the Executive Budget Office and the Legislative Budget Board on all general academic institutions concerning off-campus semester credit hours for that fiscal year.
2. Semester credit hours generated at upper level centers authorized by the Legislature or by the Coordinating Board, as well as at Prairie View A&M's Houston nursing program and Texas Woman's University nursing programs in Dallas and Houston are not considered to be off-campus.
3. All courses taught off campus must be taught by a regular faculty member or administrator who is employed at least half-time on the main campus of the institution. The Commissioner of Higher Education may waive this requirement in special cases where institutions can justify the use of a uniquely qualified individual. Allied health and vocational instructors are exempted from this requirement.

Sec. 15. **Medical School Enrollment.** It is the intent of the Legislature that the first year class enrollment of undergraduate medical students in the fiscal years ending August 31, 2002 and August 31, 2003, shall be no less than 200 students at The University of Texas System medical colleges and 100 students at the University of North Texas Health Science Center at Fort Worth and the Texas Tech University Health Sciences Center College of Medicine. This provision shall not be construed as requiring any school of medicine to accept an unqualified applicant. In the event that a school of medicine falls below the required first year class enrollment of undergraduate medical students by more than 5 percent for fiscal years 2002 and 2003, the school shall report to the Legislative Budget

Board the reasons for failing to meet the required enrollment. It is the intent of the Legislature that this information be taken into account when preparing the appropriation recommendations for the Seventy-eighth Legislature.

Sec. 16. **Tuition and Other Educational and General Local Fee Collection.** On or before the end of the 20th class day for each regular semester and the 15th class day for each summer session, each institution of higher education shall collect from each student whose semester credit hours are to be included in formula funding calculations all tuition and all fees in accordance with the installment tuition and fee payment plan provided for by VTCA, Education Code, Chapter 54, as amended. Valid contracts with the United States Government for instruction of eligible military personnel, valid contracts with private business and public service-type organizations or institutions such as hospitals, and financial aid awards processed by the financial aid office but not yet issued to the student may be considered as collections thereunder but subject to adjustments after final payment thereof.

Sec. 17. **Compliance with Access and Equity 2000.** It is the intent of the Legislature that institutions of higher education give top priority and consideration to compliance with the spirit and mandates of the Access and Equity 2000.

Sec. 18. **Formula Variable and Educational and General Income Audits.** The Texas Higher Education Coordinating Board in consultation with the State Auditor's Office and the Legislative Budget Board, shall clearly define all variables used by the Seventy-seventh Legislature in arriving at formula appropriations for 2002 and 2003. According to an audit plan developed in consultation with the Coordinating Board and Legislative Budget Board, all variables of selected formulas used in making 2002 and 2003 formula appropriations are subject to audit by the State Auditor. The State Auditor shall report any differences from data submitted by the institutions to the Coordinating Board, the Legislative Budget Board, and the Governor. The Coordinating Board shall then calculate a new appropriations amount for each institution that reported data in conflict with that verified by the Auditor. These calculations shall then be reported to the Legislative Budget Board, Governor, and the Comptroller of Public Accounts and may be used to revise appropriation authority accordingly. The calculation of revised appropriation amounts shall allow each institution an error rate of up to 2 percent of the biennial appropriations related to the variables audited at that institution.

In addition, components of educational and general income reported in the institutional requests for legislative appropriations for fiscal years 2002 and 2003 are subject to audit by the State Auditor.

The State Auditor may request the assistance of an institution's internal auditor in performing the audits described in this section.

Sec. 19. **System Offices Funding Authorized.** Educational and general funds appropriated to components of The University of Texas, Texas A&M University, University of Houston, Texas Tech University, University of North Texas, Texas State University System and Texas State Technical College Systems may be transferred or contracted to system offices to provide support for coordination, administration, and other related services.

Sec. 20. **License Plate Scholarship Program.** In addition to educational and general funds amounts appropriated by this Act, available balances and the portion of fees deposited in the state treasury during the biennium ending August 31, 2003, to the credit of the general academic institutions as provided by VTCA, Transportation Code § 502.270, is appropriated for that period to the general academic teaching institution for which it was credited for the purpose of providing scholarships for students who demonstrate a need for financial assistance.

Sec. 21. **Annual Reports of Health Related Institutions Practice Plans.** As a limitation and restriction upon appropriations made by this Act, all agencies that have a public health related institution covered under Article III shall not expend funds after a period of 120 days following the close of the fiscal year, unless there has been filed with the Governor, the State Auditor, the

Legislative Budget Board, the Legislative Reference Library and the Comptroller of Public Accounts an annual report as of August 31 of the preceding fiscal year, showing the use of practice plan funds. The annual report shall conform to a uniform reporting system developed by the State Auditor's Office for all financial data concerning the health related institutions practice plans.

Sec. 22. **Self-insurance Funds.** Any funds of an institution of higher education used for or allocated to a self-insurance fund authorized by VTCA, Government Code § 2259.001 for a risk otherwise insurable by the institution of higher education shall be treated by the Comptroller of Public Accounts as an expenditure of the respective funds. The self-insurance funds so created shall be considered designated funds as that term is used in § 51.008(b) of the Education Code. Any self-insurance fund reserves so created shall not exceed in amount the maximum value determined to be actuarially sound for each such self-insurance program.

Sec. 23. **Elements of Un-sponsored Charity Care.**

1. **Financially Indigent.** Un-sponsored charity care shall include unreimbursed services to the financially indigent. Financially indigent shall mean uninsured or underinsured patients accepted for care with no obligation or a discounted obligation to pay for services rendered based on a teaching hospital's or clinic's formal eligibility system which may include: (a) income levels and means testing or other criteria for determining a patient's inability to pay; or (b) other criteria for determining a patient's inability to pay that are consistent with the hospital's or clinic's mission and established policy. The federal poverty level shall serve as an index for the threshold below which patients receiving care at The University of Texas Southwestern Medical Center at Dallas, The University of Texas Medical Branch at Galveston, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, The University of Texas M.D. Anderson Cancer Center, The University of Texas Health Center at Tyler, Texas A&M University System Health Science Center, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center are deemed financially indigent. Financially indigent services include both noncovered services and contractual allowances for patients eligible for the Medicaid program and for the Children with Special Health Care Needs (formerly known as CIDC) program, services provided under the Maternal and Infant Health Improvement Act (MIHIA), services provided under county indigent care contracts (Sec. 26), and services provided under other state or local government programs with eligibility indexed to the federal poverty level.
2. **Medically Indigent.** Un-sponsored charity care shall include unreimbursed services to the medically indigent. Medically indigent shall mean patients who are responsible for their living expenses, but whose medical and hospital bills, after payment by third-party payers, where applicable, exceed: (a) a specified percentage of the patient's annual gross income (i.e., catastrophic medical expenses) in accordance with a teaching hospital or clinic's formal eligibility system in such instances where payment would require liquidation of assets critical to living or earning a living; or (b) the criteria for determining a patient's inability to pay as established by the public health-related institutions listed in Sec. 23, Financially Indigent.
3. **Charity Care Determination.** The determination that a patient is financially or medically indigent shall occur within 120 days of the patient's discharge from the hospital or clinic setting or within 120 days of the third party payor settlement.
4. **Contractual Adjustments.** The contractual adjustments to commercial contracts, managed care contracts, and Medicare for the public health-related institutions listed in Sec. 23, Financially Indigent, shall not be counted as un-sponsored charity care.
5. **Bad Debt.** Bad debts shall not be counted as un-sponsored charity costs. Bad debts shall include the uncollected billed charges for services rendered to patients who do not qualify under the definition of un-sponsored charity care.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION
(Continued)**

Sec. 24. **Un-sponsored Charity Care Reporting Requirement.** The public health-related institutions listed in Sec. 23, Financially Indigent, shall include in their biennial legislative appropriations request information including the actual amount of un-sponsored charity care provided through each institution's respective physician practice plan, and if applicable, hospital or clinic using the definition of un-sponsored charity care set forth in the section called "Elements of Un-sponsored Charity Care."

Sec. 25. **Patient Income Eligibility Guidelines.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall use the federal poverty level indexed at an agreed-upon level as the guideline for determining indigent patient status, and those institutions' eligibility guidelines regarding copayment by patients deemed financially or medically indigent shall be the same.

The University of Texas Southwestern Medical Center at Dallas, The University of Texas Health Science Center at Houston, The University of Texas Health Science Center at San Antonio, Texas A&M University System Health Science Center, The Texas Tech Health Sciences Center, and The University of North Texas Health Science Center may use as a basis for reporting indigent care statistical samples derived from indigent care determinations made by their affiliated teaching hospitals and designed to estimate the amounts of charity care provided using the definitions established by The University of Texas hospitals noted above.

Sec. 26. **County Indigent Care Contracts.**

1. **Contracts Required.** It is the intent of the Legislature that all institutions of higher education providing indigent health care contract with relevant counties in their service area to recover the costs associated with treating those counties' indigent patients.
2. **County Indigent Care Contracts Reporting.** The University of Texas Medical Branch at Galveston, The University of Texas M.D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board and the Governor at the end of each fiscal year a list of counties whose indigent residents have been served by each institution; the total amount of reimbursement received by each institution from each county pursuant to the Indigent Health Care and Treatment Act; and the total cost, by county, of services provided by each institution for which counties are liable pursuant to the Indigent Health Care and Treatment Act. In addition, each institution shall report annually to the Legislative Budget Board and Governor on the status of contract agreements or negotiations with each county whose indigent residents have been served by the institution.

Sec. 27. **Family Practice Clerkship Funding.** Each medical school or college shall expend the following amounts for the purpose of providing a clerkship in family practice during the third core clinical year pursuant to VTCA, Education Code § 51.918 (d)(1). Funding for these clerkships may include appropriated funds, institutional funds or restricted grant funds. These amounts may not be used to supplant allocations made for other purposes to family practice departments and affiliated family practice residency programs. The required third year family practice clerkship must have a set curriculum and the student must take an exam during the clerkship.

Sec. 28. Ethics Policy.

1. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board an ethics policy which has been adopted by the board of regents. The ethics policy shall apply to the board of regents and its staff, the administration, staff, and faculty of the institutions under the board's governance.
2. The ethics policy adopted by each board of regents shall include specific provisions regarding sexual harassment.

Sec. 29. Driscoll Children's Hospital. No funds appropriated to a health-related institution of higher education shall be used to replace or duplicate the Driscoll Children's Hospital in caring for children with special health-care needs, including pediatric cardiovascular diseases or in assuming the direct care of those children. It is legislative intent that this rider language not restrict the traditional referral patterns, utilized by physicians to refer patients to health-related institutions.

Sec. 30. Participation in Drug Development Research Projects. A public university may not expend funds appropriated by this Act, including appropriations of grants or gifts, to conduct a drug development research protocol involving a person who is receiving mental health services under a protective custody order, pursuant to Chapter 574, Health and Safety Code. This rider is not intended to limit or prohibit provisions for treatment established under § 576.022, Health and Safety Code.

Sec. 31. Post Tenure Review. None of the funds appropriated by this Act may be expended by an institution of higher education until its governing board has filed with the Texas Higher Education Coordinating Board policies and procedures regarding post tenure review which have been adopted by the board of regents. Post tenure policies shall include review procedures to determine that a tenured faculty member is performing consistently at an acceptable, professional level and a mechanism whereby a faculty member is informed of any deficiencies and provided opportunities to effectively improve his or her performance.

Sec. 32. General Academic Funding. Funding for general academic institutions will consist of four formulas and supplemental items.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION
(Continued)**

1. **Instruction and Operations Formula.** The Instruction and Operations Formula shall provide funding for faculty salaries, including nursing, departmental operating expense, library, instructional administration, research enhancement, student services, and institutional support. These funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour for the 2002–03 biennium is \$56.65.

Weighting is determined by the following matrix:

	Lower Division	Upper Division	Masters	Doctoral	Special Professional
Liberal Arts	1.00	1.96	3.94	12.04	
Science	1.53	3.00	7.17	19.29

Nursing	4.91	5.32	6.49	16.32

2. **Teaching Experience Supplement.** For the 2002–03 biennium, an additional weight of ten percent is added to lower division and upper division semester credit hours taught by tenured and tenure-track faculty. Furthermore, it is the intent of the Legislature that the weight shall increase by 10 percent per biennium, up to 50 percent.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION
(Continued)**

3. **Infrastructure Support.** Funding associated with plant-related formulas and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for universities' educational and general activities produced by the Space Projection Model developed by the Coordinating Board. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater and thermal energy. The average rate per square foot is \$7.36.
4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance (other educational and general income portion), workers' compensation insurance, unemployment compensation insurance, public education grants, 50 percent of indirect research costs recovered on grants, organized activities, scholarships, tuition revenue bond payments, Skiles Act bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Revenue derived from board authorized tuition would still be appropriated to the institutions levying the additional charges.

These formulas and supplemental items shall be reviewed and updated by study committees appointed by the Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor's Office of Budget and Planning by June 1, 2002.

Sec. 33. **Health Related Institutions Funding.** Funding for health related institutions shall consist of three formulas plus supplemental non-formula items.

1. **Instruction and Operations Support Formula.** The Instruction and Operations Support Formula shall provide funding on a per student or full time equivalent basis. Funding for each instructional program is based on the following funding weights per student, with a base value per weighted student of \$11,776:

<u>Program</u>	<u>Weight Per Student</u>
Allied Health	1.000
Biomedical Science	1.018
Nursing	1.138
Pharmacy	1.670
Public Health	1.721
Dental	4.601
Medical	4.753

Instructional programs with enrollments of less than 200 students at individual campuses shall receive additional funding to compensate for the diseconomies of scale. The minimum formula shall generate additional funding per student, on a sliding scale, with programs with small enrollments receiving more additional funding per student.

2. **Infrastructure Support Formula.** Funding to the health-related institutions for plant support and utilities shall be distributed by the infrastructure support formula which is driven by the predicted square feet for the health related institutions produced by the Space Projection Model developed by the Texas Higher Education Coordinating Board. The rate per square foot is \$11.54 for all health related institutions, excluding The University of Texas M. D. Anderson Cancer Center and The University of Texas Health Center at Tyler. For these two institutions, the per square foot rate is \$11.51.

Because the Space Projection Model does not account for hospital space, separate infrastructure funding for hospital space at The University of Texas Medical Branch at Galveston, The University of Texas M. D. Anderson Cancer Center, and The University of Texas Health Center at Tyler shall be included in the total funding for hospital and patient care activities.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES
OF HIGHER EDUCATION
(Continued)**

3. **Research Funding.** The health-related institutions shall retain 100 percent of indirect research costs recovered on grants. Each institution also receives research enhancement funding of \$1,412,500 plus 2.50 percent of its research expenditures as reported to the Texas Higher Education Coordinating Board.
4. **Supplemental Non-formula Items.** Institutions shall receive a direct reimbursement as applicable for staff group insurance, workers' compensation insurance, unemployment insurance, public education grants, medical loans, tuition revenue bond payments, and facility lease charges. Institutions may receive an appropriation for special items. Hospital and clinic operations shall be funded through a combination of hospital and clinic revenue and general revenue.
5. **Formula Study Committees.** These formulas shall be reviewed and updated by study committees appointed by the Texas Higher Education Coordinating Board and recommended changes forwarded to the Legislature, Legislative Budget Board, and Governor's Office by June 1, 2002.
6. **Mission Specific Support.** The University of Texas M.D. Anderson Cancer Center and the University of Texas Health Center at Tyler do not provide formal medical education which qualifies for instruction support under subsection 1 above. Therefore, funding allocated to these institutions shall be based on the following criteria:
 - a. The University of Texas M.D. Anderson Cancer Center has a statutory mission to eliminate cancer through patient care, research, education, and prevention. General Revenue funds appropriated to The University of Texas M.D. Anderson Cancer Center in Strategy B.1.3, Science Park Operations, and Strategy D.1.1, Patient Care Activities, shall be based on the number of new cancer cases each year based upon population estimate projections of the state produced by the Texas State Data Center and California State Center Registry incidence rates used as a methodological source by cancer epidemiologists in Texas and throughout the country. General Revenue appropriations for fiscal year 2002 shall be based on the number of new cancer cases reported in 1999, and General Revenue appropriations for fiscal year 2003 shall be based on the number of new cancer cases reported in 2000. The rate per new cancer case shall be \$70.55 in fiscal year 2002 and \$68.97 in fiscal year 2003 for Strategy B.1.3, Science Park Operations; and \$318.94 in fiscal year 2002 and \$311.96 in fiscal year 2003 for Strategy D.1.1, Patient Care Activities.
 - b. The University of Texas Health Center at Tyler has a statutory mission to conduct research, develop diagnostic and treatment techniques, provide training and teaching programs, and provide diagnosis and treatment of inpatients and outpatients with respiratory diseases. General Revenue funds appropriated to The University of Texas Health Center at Tyler in Strategy A.1.1, Medical Education and Research Items, shall be based on the number of new primary chest disease diagnoses each year in Texas as reported by participating Texas hospitals in the Texas Hospital Association Patient Data System program. General Revenue appropriations for fiscal year 2002 shall be based on the number of new primary chest disease diagnoses reported in 1998, and General Revenue appropriations for fiscal year 2003 shall be based on the number of new primary chest disease diagnoses reported in 1999. The rate per primary chest diagnosis shall be \$4.65 for fiscal year 2002 and \$4.34 for fiscal year 2003.
 - c. The University of Texas M.D. Anderson Cancer Center and The University of Texas Health Center at Tyler shall submit to the Legislative Budget Board, Governor's Office, and Texas Higher Education Coordinating Board a copy of the appropriate reports discussed above and supporting documentation which provides the necessary information to calculate the formula allocations in subsections (a) and (b) above.

Sec. 34. **Optional Retirement Program Differential.** Included in the appropriation to institutions of higher education in this act are general revenue amounts to offset local funds used for the optional retirement program employer contributions between 6 percent and 7.31 percent of salaries for employees who were on the state payroll or who were employed by a Public Community or Junior College as of August 31, 1995. These general revenue amounts are included in the funding formulas for general academic institutions and two-year institutions and in the base funding for other institutions of higher education.

Sec. 35. **Indirect Cost Recovery Earned by Texas A&M Services.** The Texas A&M University System Service agencies shall report to the Legislative Budget Board in their Legislative Appropriations Requests for 2004–2005 all indirect cost recovery revenue earned on research grants and contracts including amounts collected by the Research Foundation.

Institutions shall consult with the State Fire Marshall's Office and develop a time line for completion of the projects. Institutions shall implement the interim safety precautions recommended by the State Fire Marshall's Office. The State Fire Marshall shall submit periodic reports to the House Appropriations Committee and Senate Finance Committee on the progress of institutions in remedying the fire safety issues.

Institutions of higher education shall notify parents of students living in dormitories identified by the State Fire Marshall's Office. The notice shall contain information about the actions needed to rectify noncompliance and the time frame in which the institution plans to make improvements in order to comply.

Institutions may expend additional amounts for the purposes of developmental education.

Sec. 39. **Community and Technical College Developmental Education Funds.** For community and technical colleges participating in the Community and Technical College Developmental Education Accountability Pilot Program, funds appropriated in this article for developmental education shall be expended only for those costs associated with the operation of the developmental education program and a reasonable amount of indirect administration. Sec. 41. **Funding for Physical Education Courses.** No funds appropriated under this act shall be used for contact hours or semester credit hours for students who are registered solely for physical education, weight lifting, group exercises, aerobics, or related courses; have registered for the same such course more than once; and are not seeking a degree plan or certificate of completion of a course of study.

Sec. 42. **Faculty Salary Increase Report.** Each general academic institution shall report the average salary increase provided to faculty at the institution to the Legislative Budget Board and Governor's Office by January 31 of each fiscal year on a form prescribed by the Texas Higher Education Coordinating Board.

- a. For each endowed chair that remains unfilled for a period of three consecutive years, the institution shall provide a report to the donor disclosing the vacant status of the chair.
- b. Beginning with the annual performance measure report for fiscal year 2002, report the average length of time in months endowed chairs have remained unfilled and the percent of endowed chairs unfilled within the fiscal year being reported.

The Legislative Budget Board, in consultation with representatives from institutions, the Texas Higher Education Coordinating Board, the Governor's Office, and the State Auditor's Office, shall develop a standard definition for these measures.

Sec. 45. **A&M Service Agencies' Infrastructure.** Funds identified as Infrastructure Support for Texas Agricultural Experiment Station, Texas Agricultural Extension Service, Texas Forest Service, Texas Veterinary Medical Diagnostic Laboratory, Texas Engineering Experiment Station, Texas Transportation Institute, and Texas Engineering Extension Service are to be applied to each agency's infrastructure needs in Brazos County under the Texas Higher Education Coordinating Board's recommended formula for the A&M service agencies' infrastructure. Each agency shall continue to work with the Texas Higher Education Coordinating Board as part of the ongoing formula advisory committee review process. Included in the Infrastructure Support strategy are funds formerly classified as Capital Equity and Excellence Funding.

**SPECIAL PROVISIONS RELATING ONLY TO STATE AGENCIES

Sec. 46. **Inventory Performance Measure.** The general academic and health-related institutions shall report the following new performance measures beginning with the annual performance report for fiscal year 2002:

- a. Lost or stolen property reported to the Comptroller of Public Accounts as a percent of the total value of inventory.
- b. The total dollar value of inventoried property lost or stolen.

In the event that the aggregate amount of such scholarships which have not been awarded reaches \$250,000, the university shall also notify the Legislative Budget Board.

Sec. 48. **Endowed Programs.** A state university that, within five years of receiving a donation, diminishes its financial support from local funds for a program created or endowed by the donor, shall notify the donor, the Higher Education Coordinating Board and the Legislative Budget Board and shall cause that action to be published in the Texas Register. Upon application by the donor, the university shall return the donation or endowment.

Sec. 49. **Program Enhancement for the A&M Service Agencies.** Funds identified as Program Enhancement for Texas Agricultural Experiment Station, Texas Agricultural Extension Service, Texas Forest Service, Texas Veterinary Medical Diagnostic Laboratory, Texas Wildlife Damage Management Service, Texas Engineering Experiment Station, Texas Transportation Institute and Texas Engineering Extension Service are to be used to improve operational capacity. the purpose of funding increased utility costs at public institutions of higher education. Distribution of any amounts authorized shall be based on the Texas Higher Education Coordinating Board's infrastructure funding formula.

Sec. 53. **Housing Pilot Program.** As part of the review mandated in Section 49 (Formula Funding Study) the Higher Education Coordinating Board shall provide for a pilot program at the smallest public university within the Texas State University System in a county along the Texas/Mexico border. Notwithstanding the limitations elsewhere in this Act, the Legislature expressly finds that there is a demonstrated need to provide funding for improving student housing at a small university in this state in order to study the effect of formula funding on small institutions. The pilot program shall allow such university to use education and general funds for the limited purpose of providing student housing. The pilot program shall study the amount of revenue necessary at small universities to bond or otherwise pay for student housing in the event the limitations in Section 6, Subsection 8 (Appropriations Expenditure Authorization) or similar legislation remain in place. The board and the university shall report the results of the pilot program to the Legislative Budget Board no later than January 2, 2003.

Sec. 54. **Student Travel Policy.** Each governing board of an institution of higher-education shall adopt a policy regulating travel that is undertaken by one or more students presently enrolled at the institution to reach an activity or event that is located more than 25 miles from the institution that is organized and sponsored by the institution and that is funded by the institution, and the travel is undertaken using a vehicle owned or leased by the institution or required by a student organization registered at the institution.
